DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on July 30, 2007 has been entered.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on July 30, 2007 was filed after the mailing date of the Notice of Allowance on July 2, 2007. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner has considered the information disclosure statement. None of the references was found to affect the patentability of the claimed subject matter.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The cited prior art to Gengler discloses adding steam to a second preheat zone when cracking naphtha and to add steam to a superheat zone when cracking gas oils (i.e., heavy hydrocarbons). The Gengler reference differs from the claimed invention in that the Applicants add steam to a second preheat zone for cracking heavy hydrocarbons. Thus, Gengler does not disclose cracking heavy hydrocarbons in a naphtha-designed steam cracking furnace.
